

# ARIBELLA Enzymes+

*Complete Blend of Enzymes & Probiotics*

DAILY DIGESTION FORMULA

Improve your gut health! ARIBELLA Enzymes+ digestion formula is a proprietary custom supplement consisting of a complete blend of specific pure plant enzymes and stabilized probiotics. It is uniquely formulated to help the body digest, absorb, and metabolize nutrients. It contains many of the ingredients needed to nutritionally aid in the digestion of all carbs, proteins, and fats.

There are many potential health benefits for adding high-quality enzymes and probiotics to one's daily diet. Enhance nutrient absorption by taking it with cooked foods, as it releases trapped vitamins and minerals from them. Promote optimal digestion with every meal. Provide extra assistance for breaking down lactose, a sugar commonly found in dairy products.

In a healthy digestive system, nutrients are absorbed and "food material" is eliminated through regular bowel movements. Unfortunately, most of today's meals are cooked and processed, which can deactivate enzymes and alter nutritional content. Stress on the digestive system can cause discomfort, uneasiness, bloating, extended fullness, or constipation.
